THOUSANDS of wealthy sufferers, who are surrounded with every luxury, would exchange conditions with the robust sons and daughters of labor who minister to their wants. Of what use are riches to the victim of scrofula, of chronic liver disease, or of any of those external disorders which keep the flesh and the temper in a continual state of irritation? None whatever. Sweep away these tormenting maladies, then, with Bristol's Sarsaparilla. Nothing can be easier. The antidote is agreeable—the relief certain, rapid, and permanent. No taint in the blood can resist the purifying operation of this infallible vegetable disinfectant. cj—jy16

REPUBLICAN RAPACITY.

There is something indecent in the fact that a man bred, born and reared in Buenos Ayres, a citizen that has figured favourably on every public occasion where duty or politics forced him to the front; a man who has endowed Buenos Ayres with works of lasting importance and has struggled persistently for the peace, progress and prosperity of his country, should in this his native land be treated by the Fiscal as a perfect stranger whose signature was hardly worth the paper it was written on, and whose most solemn contract is valueless without a pledge in ready cash.

Don Mariano Billinghurst can go farther than De Tocqueville as to the ingratitude of Republics; he can prove them to be mean, suspicious and distrustful, even in matters where public utility is the aim, and private interest but a feather in the scale.

The veriest scoundrel that a young republic can produce could not be treated with greater 'desconfianza' than the man who has grown hoary in our midst toiling incessantly for his country's good, wearing away his shoulder at a wheel which, with a few other men like himself, has pushed the country on to its present prosperous position.

Our readers must be aware of Mr. Billinghurst's great efforts to launch his Rosario Railway Company in this market, nor can many of them be innocent of his failure; we have nothing to say of this, and eliminate all considerations of patriotism, allowing to every man the right to subscribe or not to the share list of a company as best it suit his pocket or his inclination. Nothing daunted by his defeat Mr. Billinghurst carried his scheme to London where, through the agency of his son Don Lisandro, the business was arranged, and four millions sterling engaged for the completion of the railway.

Citizen Acosta who rules this province must have been fully aware of all this, and his long and honourable connection with the bank of Buenos Ayres must have imbued him with a very thorough appreciation of all the many difficulties with which Mr. Billinghurst has had to contend, to carry out his scheme; perhaps the greatest and grandest, in an industrial point of view, that has ever been attempted in this market.

Citizen Saavedra, the minister of Hacienda, must have been equally aware of all Don Mariano's exertions, and the two penny-halfpenny gain to Mr. Billinghurst on the building of the road in presence of the vast importance of the line to the province at large. Yet spite of all this we are, indeed, mortified to hear that Mr. Billinghurst has been compelled to pledge his faith in his country, his government, and his railway scheme, by the deposit of 30 PIECES OF SILVER in the Provincial Bank to, guarantee the performance of his contract. Out upon such Vampirial Republicanism that stamps our whole government as one vast pawnbroker's shop, and paints the citizen as a shuffling mendicant! There is not a patriot in Buenos Ayres who would not have wept at the sight of Don Mariano Billinghurst toddling into the bank the other day with 60,000 pats. in money bags to guarantee his signature for the Rosario Railway. The sight was a melancholy one, and teaches tremendous facts—facts which fling a chain of red tape slavery around the necks of every citizen, and which chain is each day tightening owing to the avaricious distrust of men, manners and institutions.

Had Mr. Billinghurst been called in to sell off the new bank building, to knock down the Cabildo to the highest bidder, or to auction off the whole Plaza Victoria, his signature for the contract was sufficient; but to carry out a railway scheme without a farthing of government guarantee, without a penny subscribed by the bank, the Government, the legislature, the judges, the lawyers, the chief of Police or the millionaires of Buenos Ayres, he is called upon to deposit 60,000 pats. in gold to guarantee his signature. Is it not Vandalic? There is such a republican injustice in the procedure that it requires but to hold up the business to public scorn to make the public authorities ashamed of themselves in the transaction; and there is that spirit amongst us that at time shines out and fitly measures the grasping republican rascality of the age, for we recollect that when in the last session of Congress it was proposed "to nail Mr. Emilio Castro's ear to the pump" to the tune of the deposit of 100,000 pats. to guarantee his signature for the contract of the National Bank, there stood up in the National Hall of Legislature the O'Connell of this republic, Dr. Rawson, who, in defiant eloquence, flung the guarantee clause in the teeth of the House, and lifting the mind of the legislature from the grovelling naire of a "mercachiffle" legislation, placed the matter in its proper light and had the clause rescinded in a moment.

It is improper to hound down a man like Mr. Billinghurst with such garotting conditions, whose genius, enterprise and talent are such excellent illustrations of the true metal of Argentine character. Fine and imprisonment will be, perhaps, the next clause introduced in a railway concession; and to 'hang him by the heels till dead' the penalty upon a concessionaire who fails to carry out his project, either through the rise in iron, the tightness of the money market, or other unforseen causes. We have one word of consolation for Mr. Billinghurst; his name, his fame and his enterprise are not to be weighed against 60,000 pats. gold: more still, the gold in the 'Oficina de Cambio,' all the treasure in the Bank, all the paper money in circulation, are but a simple cypher against the rubric of a citizen who serves his country and gets muleted into the bargain for doing so.

Governor Acosta, refund Mr. Billinghurst his money!

MONTEVIDEO.

THE MAUA DRY DOCK.

(From the Siglo.)

This splendid work, recently inaugurated, has been entirely planned and carried out by Mr. W. H. Cock, C.E., manager of the Gas-works, a gentleman long in the employ of Baron Maua, at Rio Janeiro, the Salado canalization works and elsewhere. Mr. Cock has been ably seconded by a clever Italian named Pietro Dezorzi.

The works were begun in March, 1869, only 50 men being employed, as it was the intention only to use it for getting in lighters with coal for the Gas-works. Subsequently the idea was enlarged, and 100 men were put on, so that small vessels might come hither to repair.

Mr. Cock having pointed out to Baron Maua how the site was adaptable for a graving dock, the Baron gave him permission to push the works on a great scale, so as to form a regular dry-dock, a thing much wanted at M. Video.

An order was at once sent to England for four good divers, to deepen the entrance, which is of pure granite; also for four steam cranes, to lift the fragments after blasting. This is the most costly and tedious part of the work.

At present 200 feet long, 40 beam, and 10 ft. draught of water can enter, but soon vessels of much greater length and up to 17 ft. draught will be able to do so. An iron warehouse, 270 feet long by 40 wide, is expected this month from England, and Mr. Cock has also ordered two steam pumps with all hydraulic appliances, so as to empty the dock in four hours. Baron Maua has already spent £160,000 on the works, and Mr. Cock thinks it will require £40,000 more.

LATEST FROM BRAZIL.

Rio Janeyro, Jan. 9th.

The Government has made a contract with the Pacific Steam Navigation Co. for at least 50 English families monthly to be brought out as emigrants; many of them are dock laborers and other hardy, industrious classes of people.

The National Exhibition averages 800 visitors daily, the charge for admission being 4 dollar.

Cap. Moncrieff of the British barque Bina committed suicide a few days ince by shootig himself.

The British Admiralty's exploring steamer Challenger, 1500 tons, commanded by Capt. Nares, is daily looked for: she is to study the currents along the Brazilian and South-east coast as far as Cape Horn, then proceed to New Zealand and Japan on a similar mission. It will take some years to accomplish.

A triangular duel is going on in London between Benites, Jerrero and the house of Robinson Fleming, about who is to receive the proceeds of the Paraguayan Loan. Benites demanded the papers &c. from Robinson, but Jerrero, put in an injunction, alleging he was the special agent for the loan, in which difficulty it seems Fleming advised Robinson not to give up to either, as the money was safest in the hands of the firm. Then one or other of the disputants insisted on Robinson and Fleming sending out the money to Paraguay; to which the latter also demurred on the grounds that a previous remittance had been embargoed *in loco situ* at B. Ayres. The matter is likely to lead to a noisy lawsuit before the Court of Chancery.

The Maua lawsuit about the South Atlantic cable has been decided in the Baron's favor. The chocolate-man Menier, alleged he had expended £80,000 in trying to launch Ballestrini's concession, but the Master of the Rolls said it appeared never more than £8,000 had really been raised in the business, and as the cost of the cable would be fully £1,500,000 sterling he held that there was no bona-fide Co. formed until Maua took it in hands, and therefore put out of court Ballestrini, Menier 'e tutti quanti. The Telegraph Construction and Maintenance Co. along with the Falmouth and Gibraltar Co. engage to have the first section to Madeira ready for the Great Eastern to take on board in the current month.

The most important news from Europe is the recovery of the King of Spain, whose illness was attributed by the *Economist* to the effects of poison. The Emperor of Germany has been making 11 more Peers, and among the number is the eminent Prof. Hoffer. Archaeologists are busy with some new stones disinterred at Nineveh, recording the Universal Deluge. Diamond cutters having struck work at Amsterdam now get 50 per cent. more salary.

Cases of Yellow Fever are unfortunately of daily occurrence, and this morning's papers report 5 deaths from this cause, besides other cases of 'pernicious fever.'

In Rio Grande the same epidemic has appeared; 17 men employed in the Rio Grandense Dredge shewed symptoms of this kind, but the authorities persuaded them it was because they had cooked their meat in copper vessels.

An awful storm occurred at Port Alegre, 6 people buried alive under ruins, and many others hurt.

The weather here is not so hot as might be, only 84 in the shade. In Port Alegre it has reached 106.

LONDON LETTER.

(From our own Correspondent.)

Dec. 14th, 1872.

A week ago I gave you the "general opinion" that the Bank rate would rule at 6 per cent for the rest of the year. "General opinion," which is usually formed on what the rather periwig and pigtail *Economist* chooses to say and on what the city editor of the *Times* is permitted to write by the great financial houses, is again wrong. The bank rate is 5 per cent, and 4½ outside. The stock market is particularly buoyant for the season. The reduction in the bank rate was certainly unexpected. It was justified by the sudden influx of revenue which doubled the increase of the reserve in proportion to the increase in the liabilities; and you will be pleased to observe that the increase in coin and bullion was to the extent of nearly half a million, and only £51,000 of that amount was received from abroad! A proof that raising the Bank rate for the purpose of drawing money from abroad is not always to be relied on, and is always pernicious to the home market where the bulk of the gold really resides, and from whence it will return in the ordinary course, if not disturbed by artificial perturbations.

In the present case the increase in the reserve is due to the return of sovereigns from circulation, now that the autumnal demand in the country is satisfied. What we want of the bank is increased circulation, so that after each harvest we may not be subject to unnecessary panics, by which the London capitalists are enabled to fleece us.

The London and River Plate Bank Report states that the directors recommend a dividend of 6 per cent., making 11 per cent. for the year, which will allow £10,000 to be added to the reserve and leave £8,877 to be carried forward. The business activity which is displayed throughout the River Plate provinces leads to the expectation of continued prosperity. The shares have advanced in consequence of the favourable report.

At the beginning of the coming year the Pacific steamers will be advertised to leave Liverpool every Wednesday! I hope you appreciate the importance of this announcement. Buenos Ayres is no longer a distant foreign port known only to geographers and hide merchants, it is a ferry; very soon, a steamer will leave the landing stage Prince's pier every morning at 11 a. m, for Port Alegre, Montevideo and places on the opposite coast.

Last Saturday another batch of agricultural labourers sailed from Liverpool in the Pacific Steam Navigation Company's Royal mail steamer John Elder for Rio de Janeiro. On the 13th ult. the Lusitania left Liverpool for Rio de Janeiro with a large number of labourers from the neighbourhood of Leamington; and the John Elder, which sailed on Saturday, had on board 354 farm labourers from Dorset and Gloucester. The next steamer leaving Liverpool for Rio de Janeiro will take out another and final number of emigrants for the present year. In the spring of next year it is expected that about 2,000 farm labourers will leave the Mersey for the Brazils, especially under the auspices of the Brazilian Government, as the Emperor, having taken great interest in the manner in which the agricultural districts of England are worked, has placed a special fund at the disposal of gentlemen whom he has appointed as emigration agents.

The dark spot in the question of emigration to South America is Paraguay. We are all anxious to hear how our fellow countrymen are who have been induced to go to that somewhat primitive country. It will be a great pity if H.M. Emigration Commissioners who have been so impolitic in their unqualified denunciation of Buenos Ayres as a field for emigration should be able to screen themselves by the failure of English immigration in Paraguay. It is worth the while of some of your benevolent merchants to inform themselves as to the preparations made in Paraguay for the reception of "five Englishmen" sent at so much a head by business agents in this country. People here will make no distinctions between Brazil, Paraguay and the Argentine confederation. A scandal in one place will down the others.

There is a rumor current in Paris that the Minister of Finance, with the aid of the house of Rothschild, is about to negotiate for the immediate liberation of the French territory. This rumor has often appeared before, and in various shapes. There is probably something in it; but it is generally put forward in political crises like the present, to calm the dissensions of parties with the hope of realising an object which for the nonce is common to all. M. Thiers is understood to have expressed his regret that the Left should agitate the question of dissolution of the Assembly just at this moment, when three months hence he would be in a position to support the movement. It is presumed that he would have paid the Germans, or given security for the balance of the indemnity, or negotiated through Rothschild for the same purpose. The great debate and trial of strength at Versailles takes place this afternoon, and you may hear the result by telegram. It may be, as *Gambetta is reported to have said privately, that the situation is not as bad as it looks.*

The hypocritical agitation of the Right in favour of ministerial responsibility and parliamentary Government drove the Left to agitate for a dissolution of the assembly which is after all not strictly a parliament, but only an assembly *ad hoc*. It may be a question whether the purpose for which the assembly was elected was to decide on peace or war as the Left assert, or also to complete negotiations with the enemy by the liberation of the territory as the Right assert. But as a matter of fact the monarchical majority invested M. Thiers with extraordinary powers to effect one or other object; and they must either acquiesce in his choice of ministers and of action or insist on his resignation; and from this latter alternative they have again and again recoiled.

The obvious truth remains that the majority wish to make use of their advantage in the Assembly, not only to treat for the liberation of the territory, but to proclaim a monarchy. This M. Thiers has so far resisted, partly, perhaps, from a conviction that the monarchical party is too weak and divided, and partly to satiate his own vanity and fussy propensity for arranging everything for everybody. For their own ends the Republicans support him, so that the immediate questions in discussion are really of slight importance, and are merely preliminary tactics on both sides to feel for the enemy, and to delay or precipitate the final contest between monarchy and republicanism. The only question of interest is, will the final contest be postponed till the Germans are out of France. The probability is that it will; but no one can be a political prophet in French affairs where feminine sentiment and uncontrolled passion override the quickest intuitive reasoning powers possessed by any nation.

For this, afternoon all the fractions of the Right have deputed MM. Kerdrel, Cumont, and Lambert Ste. Croix to draw up an order of the day, which, it is expected, will declare that the Assembly will not separate before the territory is completely liberated, and will affirm that the Left is responsible for the present agitation. The Left Centre is divided with regard to the discussions on to-morrow's petitions. The most influential members will propose to separate from the Radicals and censure the premature agitation for a dissolution of the Assembly; the others wish the adoption of the order of the day pure and simple. It is not expected M. Thiers will be present at the Assembly. M. Dufaure, and not M. Goulard, as was at first supposed, will probably speak for the Government.

In Germany, Prince Bismarck has passed his District Administration bill by a large majority, swelled by the new peers in the Upper House. The two parties are now preparing for the greater contest on the religious or anti-sacerdotal question. In England Archbishop Manning attended a large meeting at St. James's Hall, in favor of the movement amongst the agricultural laborers. Mr. Arch, of Warwickshire, and Mr. Ball, of Lincolnshire, agricultural laborers and the principal agitators in the counties, addressed the meeting in pretty plain, if not violent terms. But Archbishop Manning praised their honest Saxon, their God-fearing and law-abiding professions, and entered heartily into the cause of what he called 'those good, honest men.'

This fraternization of Rome with the English peasantry has of course not escaped the attention of Mr. Newdegate, who foreseeing the coming attack on land monopoly has got as far as recommending a county registration for the transfer of land. Dear Mr. Newdegate. God bless the bucolic mind, the fat beasts, the cattle show and all that is therein. The cattle show closed yesterday and was very successful. The prize ox was Mr. Bruce's 'Scot.' By its name and owner the beast should be the envy of the Hon. Robert Lowe, who appears to be almost as great an animal, and, as he told us the other day, wants to be a Scotchman; and not "back a saxpence." But the Scotchmen won't own him. He is keen enough perhaps and unscrupulous enough, but he is not a God fearing man.

Lady Doughty is dead. Sir Roger Tichborne is continuing his exhibitions at St. James' Hall and this week he gained a small triumph in a law court. A certain Mr. Nugent had made a contract to allow him £22 10s. a week and his travelling expenses, and Nugent was to organize the "meetings"—that is shows—at the principal provincial cities, and pocket the receipts. Amongst other places Dublin was named; but the claimant was legally advised not to cross the channel. Finally it appears the exhibitions did not pay and it was understood that the contract had lapsed. But when the claimant organized for himself a meeting at St. James' Hall, Nugent applied for an injunction. Vice Chancellor Malins who seems not of the Bovill species, stopped the case and refused the application on the ruling that the man Nugent had made a business of exhibiting the claimant and had not fulfilled his part of the contract. Sir Roger gave his evidence with great 'aplomb' and quite shut up the counsel, Mr. Glasse, who attempted the quiet badgering style à la Hawkins. The Vice Chancellor observed casually that he did not see what right the claimant had to style himself Sir Roger Charles Doughty Tichborne when he had submitted to a non-suit.

Sergeant Bates has taken a trip to Paris and the Continent, but now talks of carrying the 'Union Jack' through the States. He has written some admirable letters to the *Echo* and other papers describing his reception. The letters were puzzling to us who had been told that Mr. Bates was once a working man and afterwards an artillery sergeant. But it appears he is Sergeant of Law!

There has been a great exhibition of theological hatred at Oxford in regard to the appointment of Dean Stanley as one of the University preachers. Mr. Bargon, Dr. Goulborn, Dean of Norwich, and other High Churchmen canvassed all the non resident voters in convocation to resist the appointment. To the honour of Oxford the latitudinarian Dean of Westminster was appointed by a fair majority. Oxford itself is very high church. I had the pleasure of staying a day or two last week in its classic precincts. I had no familiar converse with the "Dons," but from young friends who had just taken their degrees and undergraduates I could gather that the retrograde ideas Oxford is generally credited with are confined to non resident members of an older generation or to youngsters of Christ churche and one or two of the swell colleges. The principals of half a dozen of the largest colleges were represented to me as liberals; even the venerable Dr. Pusey, the father of the tractarian movement, is supposed to have voted for Dean Stanley. Liberal or Conservative, Church or no church, and it begins to look alarmingly like no church; there is no fear of religion in this country. A London daily paper has offered Mr. Smith a 'carte blanche' to go to Chaldea or Nineveh, and decipher the Assyrian monuments in the hopes of confirming the Biblical account of the flood. Mr. Smith, who is engaged in the British Museum, will probably get leave of absence for that purpose.

Almost continuous rains, gales and hurricanes, with now and again an attempt at frost. The weather seems to be the same at Paris, and other parts of Europe. Serious inundations are still threatened in France and Italy. In our small way at Oxford, Christ Church meadows are a complete and beautiful looking lake. The country for miles about the city is half under water. Yet the weather is so mild the shrubs are budding as in early spring.

EDITOR'S TABLE.

It's too bad! a great deal too bad! Professor Gould never said any such thing, and the whole business has been a monstrous LARK perpetrated by a waggish German broker! The thermometer only touched a shade above 85 Fahr in the shade yesterday at noon; so the Teutonic broker's prediction of 115 went to grass. We expect an awful blowing up from Professor Gould, but we could n't help it; we have such implicit faith in German scientific veracity. We'll know better next time; meanwhile, we feel bound to repeat that the eminent astronomer who directs the Cordoba Observatory made no observation whatever as to what the heat would be yesterday. President Sarmiento received no telegram whatever from him on the subject; and if any timid broker, banker or barraquero remained in bed all day and suffered in his mind and his business, he has no one to thank but the German broker, whose name the tortures of the Inquisition won'd be impotent to wring from us—this time; but it is not fair to humbug well meaning editors in this way. In connection with this subject we may mention that a kind and sympathising subscriber, seeing that our thermometer had burst from overwork, sent us yesterday morning a beautiful new one, which looks as if it would not give way if hung from the Line with a red hot chain. We are very much obliged to our polite friend.

As there is some doubt expressed as to the name of the Hamburg steamer aground in the Magellan Straits, we deem it right to repeat on the best authority that the stranded ship is no other than the Dampfschiffahrt-Gesellschaft-Kosmos, Karnack. This settles the question.

Our London Letter, in another column, is interesting; we had to hold it over yesterday.

We have to thank Messrs. Yarrow & Co., of Montevideo, for forwarding us late files of English papers, received by the fine steamer Edinburgh Castle.

The *Pampa* continues its terrific attacks on our corrupt Bench and legal system, and intimates its intention to hold all the damning written evidence in its possession 'in terrorem' over the heads of the guilty parties (several of them behind the scenes as yet) till it sees if the Tribunals will do honest justice in the Agrelo-Speratti case—whether they do or not, we are certain to see it. 'Fiat justicia ruat cœlum.' Go it, colleague! Every honest man in the country wants our Legal Jurisprudence purified. We intend to reproduce in a day or so some of our own articles on this same shocking subject, written five or six years ago; and the cancer has been growing since then.

It appears from the Immigration returns that of 37,037 arrivals here last year 26,208 came direct from Europe, and 10,829 landed at Montevideo and then slipped up here. In December last 8651 persons landed here, amongst them 77 English and 60 Germans; the Italians figure for 2778 and the French 938, Spaniards throwing in for 964 and the rest a 'mixtum gatherum' of all nationalities. The 'Asilo' helped 8594 persons during the year; amongst them figures one solitary Englishman; he must have been at the very top of the 'hard ups,' as Britons are very rarely found on the list of the Asylum.

No more Roederer, nor Moët, nor Werlé (the so called Veuve Clicquot), nor any of those brands. The best Champagne, according to the Diplomatic Corps, is the "Eugene Clicquot". We think that ministers ought certainly to be good judges of the product of the vine, and according to them "Eugene Clicquot" is the wine which the best agrees with this climate.

We hear of a terrible affair near Chascomus. Some days ago an Englishman known as Peter was found on the banks of the Samborobom, stabbed to death. It is believed that the dreadful crime was committed to secure possession of the sum of 30,000 paper dollars which the victim was known to have. He leaves a wife and large family.

A German has also been shot by a 'pulpero' in the same partido, in some trifling dispute about paying for drink.

The drowning of 8 persons in a diligence near Santa Rosa B.O. has given camp travellers here a start, and it would be just as well if Mr. Acosta would wake up, and if he do nothing else, at least see to the completion of the camp bridges without delay. A camp diligence 'taking' an 'arroyo' in wet weather is about as ludicrous and pitiable a spectacle as can be conceived. Which of us has not experienced it? Ask Mr. Le Maistre and Mr. Makern what it's like! The particulars of the Santa Rosa accident are lamentable. On the 28th ult. the diligence in question reached the 'Zania Honda.' There was at the moment but a few feet of water, and the guard decided that the coach could pass. While the passengers and driver were talking over the matter down came the rain in sheets. A dash was made, and the carriage stuck in the middle of the stream. The 'mayoral' ordered every one to jump out and wade to shore for their lives. They were afraid, though the water was then only three feet deep. The postillions tried to drag two young and beautiful girls out, to save them, but their mother would not allow it. In three minutes more the water rose over the coach, and away it went to destruction with its living freight and nine horses. The 'mayoral,' seeing all was lost, seized a child and gallantly saved its life. Every one struck out for land in the raging waters. Several reached the banks, but one gallant fellow again plunged in to save a lady, and was lost. Mrs. Carini and three children, Mr. E. Baltar, Mr. Minoya and his wife, and Miss Bonetti, a very handsome girl, all went to the bottom; two of Mrs. Carini's children could not be found, but the other six corpses were buried in Santa Rosa. This is the saddest accident we have heard of for some time.

Daws! Daws! Daws! People can't sleep for 'dear Daws' now-a-days. The very latest thing he has on hands is a few extra copies of the 'Young Ladies' Journal.' He is cleared out of 'How I found Livingstone;' that Scotch review sold them all for him. As for Harper's Weekly and Monthly, Godeys, &c., he has a fountain of them in his back parlour, and requests early application, lest it should run dry this hot weather.

The latest advices from Chile report wheat of the new crop as selling at $1.75 to $2 per hectolitre. Wool is quoted at 12.50 the quintal. A clerk in the house of Messrs. Robert Moore, Bros at Iquique has vanished with 3,200 soles, belonging to his employers. He is said to have made for the Plate, so people had better look out for any stray "gentlemanly young men" from that quarter.

Amongst the buffooneries of the approaching Carnival we hear of a Ladies "comparsa." We predict conspicuous grief for those composing it, and "sarve em right;" but perhaps they are not ladies, only women.

Colonel Donato Alvarez, Commander on the Southern frontier of Santa Fe, is now in town with important proposals of peace from the Chaco Indians. We salute this gallant officer, whose name is distinguished on the Army List in connection with the splendid regiment 'San Martin,' during the Paraguayan war. This heroic corps left Buenos Ayres 1400 strong for the seat of war, and when the muster-roll was called on its return but *sixty-eight* rank and file answered to their names. The rest had "foremost fighting fallen" for Argentina, Home and Beauty.

Any one who wishes to secure magnificent household furniture had better bear in mind that the auction of Mr. Livingstone's household gods will come off to-morrow. Such an opportunity rarely occurs.

We received by the mail full particulars of the loss of the steamer Carolina, from Baltimore to Queensland. It was, no doubt, the loss of this vessel that gave rise to the rumour of the Caroline, belonging to Mr. Graham, the well-known Bass importer of this city, having been lost. Poor Mr. Graham wore out half a dozen pairs of the best boots running about town to learn the truth; in consequence of the false rumour set afloat by his 'd——d good natured friends.

The subscription list of the *Pampa* is increasing in an unprecedented manner in consequence of the Agrelo 'esclandre.' On Thursday last that paper registered 110 new customers, and almost an equal number every day since. Since the STANDARD started, 12 years ago, it can show an increased number of subscribers every single week, and all through last year a most notable augmentation; but we never yet touched 110 in a day. *Pampa* luck.

The chemists in Cordoba have been analysing the local milk. 'The cow with the iron tail' contributes nothing to it; but it is found that a Cordoba milch cow gives only eight quarts of milk a day, whereas a milker born in the County of Kerry gives with ease 20 or 25 quarts. Kerry for ever!

Iron seems the mineral of the day. Up the country there is nothing going on but prospecting for iron. One Province, Tucuman, has declared out of the race, its Government having written to the National authorities that, to the best of its belief, there is not as much iron within its jurisdiction as would make a tenpenny nail.

There is a 'little unpleasantness' at Guardia del Monte between the ex and the present Juez de Paz. The 'ex' is a most respectable Argentine, Mr. Gonzales Videla; the 'de jure' is an equally respectable Irishman, Mr. Julian Kelly. Why Mr. G. is not deuced glad to get rid of the post, which he held with credit last year, does not appear; but the fact is, he won't hand it over to the new man, and the neighbours are thinking of making him do so. So the quarrel stands.

The Reverend Father Esquin, according to a colleague, has definitely answered "nolo episcopari" respecting the Archbishopric of Buenos Ayres. The next on the "terna" is Dr. Aneiros, Bishop of Aulon "in partibus infidelium", and his name will be at once forwarded to the Vatican by the Govern-

ment as its selection for the see of this capital.

We hear that the Colegio Ingles Superior, Calle Artes, has burst up, and that Dr. O'Dwyer, who licks Dr. O'Toole hollow as an 'Irish Tutor,' now offers his services to the public in private tuitions. Dr. O'Dwyer's 'specialité,' as is by this time well known to parents and guardians, is to teach the rising generation how to write. In three lessons he does as much to this desirable end as another man in thirty.

Chicago, having rebuilt itself is now thinking of "increasing and multiplying." Here's a nice little "runaway" case reported from the burn out city;—"Next to the procurement of papers of divorce, the principal domestic amusement of Chicago is, indubitably, marrying and giving in marriage. As the one is necessarily the corollary of the other, this peculiarity should excite no surprise. But the fact remains that the average Chicagoan marriageo is quite as unique in its way as the generality of divorce in that city. As witness the romantic escapade of Miss Ella Hancock and Mr. Thomas Lynden, of recent date. The gentleman was the coachman of Miss Ella's father, and frequently had occasion to drive her out alone on shopping and recreative excursions. Thomas was several degrees removed from an Adonis. Indeed, he was singularly unprepossessing in appearance, being of a rubicund cast of visage and almost entirely bald. Nevertheless he succeeded in winning the affection of the young girl, who was only fifteen, and had an extensive education in novels of the Miss. Braddon type; and after divers entreaties he persuaded her to say that she was over eighteen and casually remark 'I will' to a certain interesting interrogation of the officiating clergiman. Having perpetrated this combined perjury and matrimony Mrs. Lynden became alarmed, and informed her parents of the proceeding. They wrathfully dismissed the ambitious coachman, and are at present instituting proceedings to have the marriage set aside, which will probably be done. A divorced woman fifteen years of age, it may be added, would be an object of some curiosity in any city except Chicago."

We have a little news from Rosario. Ex-Governor Montes, of Santiago del Estero, is lounging about there with his hands in his pockets, with nothing to do but sip cocktails and go to the theatre at night. There was a tremendous demonstration on the mole on Sunday, at the departure of Mr. Weldon, of the London and R. Plate Bank. All the bank employees and half the spry girls in town were there to say "it may be for years and it may be for ever." Matti and Piera have hit on a short cut by 20 leagues for their steamers going to Gualeguay, and they want to patent the discovery for four years. Somebody is going to pave the Plaza, and the Ladies want somebody else to sweep their pet promenade, Paseo Lopez, for them, so as not to dirty their trailing skirts more than is necessary. The *Capital* publishes a ferocious 'bola' to the effect that 80,000 emigrants are waiting in European ports to embark for the Plate. Take it easy colleague! Half the number at a time would be pretty fair, but we'll come to that, and more, before long!

In the year just concluded the Post-Office of the Republic produced $f.90,103,55 in Buenos Ayres, and $f.47,609,38 in the provinces, showing an increase of 20,298 pats over last year.

The *Times* calcutta correspondent writes.—"A learned pundit has, it is said, formed an association in Benares for teaching the young men of India navigation and shipbuilding, and sending quiek and well-conducted youths to England for education. This, if correct, is one of the greatest marvels of the time. If once caste can be so far set aside as to allow Hindoos crossing the sea, you will soon have intelligent 'heathen' in abundance in London."

Another break-down on the Western Railway! Engine fell to bits on Tuesday about 8 o'clock near Ramos Mejia; train ever so many hours late; general howl among passengers all along the line, but no money returned. On Monday a couple of waggons laden with exquisite drawing-room furniture were burned to cinders: sofas, three-legged stools and pianos, all made charcoal of. And the managers of this supreme railway have been named to draw up 'reglamentos' to *prevent accidents* on the other lines!! Moses! flesh and blood won't stand it; so don't mind it till you mend your own ways, permanent and others, countryman Huergo!

The lions, tigers, elephants, gorillas and monkeys which arrived here on Monday night are all alive and hungry. They will be 'at home' on Saturday or Sunday, probably both, at the corner of Calles Parana and Corrientes.

The big Paraguayan girl who used to attract all the small boys in town to Messrs. Zambonini's cigar shop in Calle Cangallo has gone to "Kingdom come" after a sharp attack of apoplexy.

The Alps sails on the 18th, the La France on 19th and the Galatea on 22d. Half-past 1 o'clock, half-past 11 o'clock and 2 o'clock are the various hours for shutting the Capitania on the various days.

The Municipality is spoiling Plaza Montserrat, enclosing it with a nasty brick wall. We often go up there to "tomar el fresco," and the other night nearly broke our neck trying to get into and out of the Plaza. There is a general outcry in the neighbourhood against the innovation.

While we are writhing in the coils of corrupt judges and rascally escribanos here, the following anent the rush of new attorneys at home may prove interesting. If the name of those "learned in the law" at home be "Legion" it must fairly be said for them that there are comparatively few very black sheep amongst them."—"LEGION." In the financial year 1871-72 13,824 attorneys, &c., took out their annual licence or certificate, for which £9 has to be paid by those resident in London, Edinburgh, and Dublin, and £6 by those resident elsewhere, half duty only being payable for the first three years of being in practice. The number is 127 more than in the preceding year. The tax produces above £90,000 a year.

Prince Leopold has matriculated as a member of Christ Church. His Royal Highness wore on the occasion a nobleman's black silk gown, black velvet cap, with black silk tassel, instead of the ordinary gold tuft, characteristic of princes and noblemen at Oxford.

A highly interesting account of the Christmas sports at Messrs. Thompson Bonar and Co.'s flourishing Colony of Alexandra, in the Gran Chaco, will be found in another column. We hear that everything goes on splendidly just now at this settlement. Indians completely sat upon.

THE ALEXANDRA COLONY.

CHRISTMAS SPORTS.

Christmas sports were not neglected at this colony, spite of the slight drawbacks incidental to a semi-tropical climate and a newly populated country, such as Indians, mosquitos, heat, dust, thirst &c.

For the first, our late severe lesson has kept them at a respectful distance, and we were able to pursue our sports without being armed to the teeth.

For the second, they seemed to be properly impressed with the importance of the occasion and fasted for one day, giving us a short respite from their piquant attentions.

For the last proper provision was made by the unremitting exertions of Capt. Colman of the steamer Alexandra.

The pleasures of the day were enhanced by the presence of numerous fair dames with their families from the adjacent colonies, and we may here take the liberty of observing that this meeting has been the means of drawing still closer the bonds of union between colonists of all nationalities on this side of Santa Fe.

Through the able and energetic management of our much esteemed Director Edmund Coppinger, of Banda Oriental reputation, nothing was left undone for the befitting reception and entertainment of the guests; and it would not be out of place to remark here that the behaviour both of the men employed in the administration itself, and of the colonists who came from their concessions to visit the sports was such as to merit the highest praise and to reflect the greatest credit on the manner in which this colony has been conducted from its commencement.

The Programme of the day was as follows—

Scurry Race.
6 Furlongs, 20 ran.
1. Zamomalacara, W H Moore.
2. Zaino.....T Mooro.
3. Bayo.....T Davies Jr.

There was little or no betting on this race, as the horses were chosen out of the Corral by lot. Won easily

Rifle Shooting.
100 and 200 yards, 39 competitors, 2 shots at each distance.
1. W H Moore.
2. V T Massy.
2. T F Wilkinson.

This was the most creditable performance of the day, the competition being very severe, and the shooting being quite equal to anything of which we have any knowledge in the River Plate. The targets were barely two feet square: yet in spite of the high wind the misses were very few.

Revolver Shooting.
25 yards, 18 comps. 6 shots each.
1. W H Moore.
2. Saml Gibson.
3. I C Thompson
3 Spencer } divided

Some splendid shooting was made in spite of the above mentioned drawbacks of wind and dust.

Foot Race.
100 yards, 10 entries.
1. G Spence ..... scratch.
2. Albert Lorenz..... 3 yards.
3. R Griffiths ..... 3 yards.

Won by a foot: good 3rd. Time not taken.

Gran Chaco Handicap.
1 mile 140 yards, 25 subs., 11 declared.
1. F. Stephenson's Alazan 'Beauty' 10 st. 6 lbs J. Jenkinson.
2. Th. Moore's Tordillo 'Stratheonan' 12 „ 8 „ Hermin.
3. J.H. Brigg's Zaino 'Tommy Dodd' 13 „ 2 „ Owner.

Betting: Even on Tommy Dodd, 2-1 against Stratheonan 5-1 against Beauty; 10-1 others.

This race caused great excitement, being the first handicap attempted here, and the event justified the confidence placed in the handicapper: Beauty made all the running; and won by a length: a tremendous set-to between Strathconan and Tommy Dodd for second place resulted in favour of the former by a head. Other 3 close up.

The heat of the day now becoming oppressive we all adjourned to the administration, where a sumptuous repast awaited us under the direction of Messrs. Tom. Horsfall and Gibson, comprising all the good things usual under such circumstances among our own countrymen, and in addition in honor of native guests a magnificent "asado" of "carne con cuero".

Luncheon being over, a few moments were devoted to sighs of contentment, and the fragrant weed, when we once more placed our fair guests on the dais of the "Grand Stand"; and, our energies renewed by the glances of encouragement bestowed somewhat shyly as befits the Chaco on successful competitors, we went to work again with increased diligence to prove that Saxon pluck is proof against the attacks of all such small insects as heat, heavy feeding &c.

The sports recommenced with the

Grand Tilt at the Ring.
3 runs each. 2 entries.
G. Spence ..... Winner.

The Alexandra Hunt Cup.
Distance two miles, over eight fair flight of hurdles; 21 entries; 13 declared.
Mr H P Nolan's bayo Coyote (Mr Massy).... 1
J Pugh's gateado Blair Athol (Mr W H Moore)..... 2
J M Brigg's rosillo The Duke (Owner)..... 3

G. Spence's Ploughboy, B. Manning's Ratcher, F. Stevenson's Beauty, Mr. O'Connor's Fang-a-Ballagh, and J. C. Thompson's Cuffe also ran.

Betting—5 to 4 on Ploughboy, 2 to 1 agst The Duke, 6 to 1 agst Faugh-a-Ballagh, 8 to 1 agst Blair Athol, 10 to 1 agst Coyote, 20 to 1 agst others.

Beauty jumped away with the lead which he held to the second fence, when The Duke took up the running, closely waited on by Blair Athol and Coyote. Faugh-a-Ballagh headed the ruck. Very little material change was made in the position of the horses until the last obstacle, when Coyote, who had been ridden with great patience by Mr. Massy, drew up to The Duke with Blair Athol on the outside, and after a severe set-to between the three, came away and won in a canter by a length: half a length between second and third. Beauty was a good fourth, and Cuffe 5th. The favorite bolted after the first hurdle and was out of the race, which was done at a good pace from start to end.

This closed the eventful programme of the day.

The sports and races were conducted strictly according to English rules. The following gentlemen acted as stewards:—

Edmund Coppinger, Esq.; H. P. Nolan, Esq.; W. McDonald, Esq; Captain W. Bailey, R.E.

Judge—T. F. Wilkinson, Esq.

Treasurer—Mr. J.H.E. Briggs.

Clerk of the Course and Handicapper—Mr. Wm. Bruce.

Starter—Mr. J. C. Thompson.

The shades of evening now closing in, all hands returned to the administration where we again found a splendid bill of fare prepared by Messrs. Horsfall and Gibson.

When ample justice had been done to the roast beef and plum pudding of old England, Mr. Coppinger rose and proposed the Queen. The toast was drunk in silence with full hearts.

Mr. Nolan proposed the United States.

Mr. Massy proposed Victor Emmanuel and the Vaudois.

Mr. Baridon, the oracle of these last, rose, and in a very pithy speech set forth the pleasure they had enjoyed during the day, adding that his countrymen were all agreed in considering the place a 'paradise,' and that they wanted for nothing. He concluded by proposing the health of J. Thomson T. Bonar & Co., coupled with the names of Messrs. Heartley and Coppinger. Dear to us all are these two names, and the enthusiasm reached its climax as cheer after cheer rang out through the silent night waking the echoes.

After dinner the children were amused by a splendid display of fireworks, under the supervision of Mr. Briggs.

At ten o'clock we adjourned to the Great Mill Galpon which had been fitted up with considerable taste as a ball room, when a grand concert was given.

Our Welsh neighbours favoured us with some very sweet choruses.

Some pretty solos were sung by Mde Boyd, Messrs. Coppinger, Wilkinson, Massy Spencer and Thompson, but the song of the evening was 'Our Colony,' written and sung by our poet-laureate Mr. Wheatley.

After a capital nigger entertainment in costume between Messrs. J. C. Thompson, J. Spencer, J. Erskine, and G. Jenkinson, in which Thompson's clog-dancing was applauded, the stage was removed, and dancing commenced in earnest, kept up with great enthusiasm until daylight, when all retired to take a few moments necessary repose after cheers for our present and late manager, given amidst a shower of sky rockets and crackers.

ON 'CHANGE.

January 15th, 1873.

Ounces	400
Sovs	122½
Pats	25
National Bonds	81⅝

There was nothing done in bonds to-day during business hours, but prices ruled very firm. The Bienhechora it was said amongst the brokers bought 13,000 at 81⅝, which with 20,000 bought week makes 33,000 taken off the market; small last as this is, it has affected the market as bonds in brokers' hands are scarce. The total amount is estimated at 732,000, floating in the market; all the rest are placed, and as the quarterly amortization now calls for 160,000 bonds, soon, the stock in market will be exhausted.

Offers were made to-day for Lobos Railway, Provincial Bonds 6 per cent. at 92, nothing sold.

Cedulas ruled firmer to-day than yesterday; the following were the sales:—

Cash	Series A	1,600	98⅜
Feb 10	do	1,600	98⅜
Cash	do	2,400	98⅜
Jan 31	do	15,000	98⅜
Cash	do	30,000	98⅜
"	do	10,000	98⅜

Roads and Bridges Stock—2,000 sold at 98½

Municipal Bonds—175,000 at 98

The following gentlemen were welcomed on 'Change to-day—

Mr. Woodgate, from Valparaiso
Mr. Lowry, Montevideo
Mr. Urban Smith, returned from England.
Dr. Olguien. do do.
Mr. Sacham, from Antwerp

Mr. Proudfoot, on his return from Cordova.

In Exchange nothing done, except on Montevideo at par and ⅛. France and Antwerp in demand.

Messrs. Poyredieu and Bradley sold to-day 500 ar. Magdalena wool at $100, and have now in market 10 carts of Mr. Richard Newton's wool from Magdalena. This wool up to this year was always shipped to England.

Respecting Mr. Warwick, the wool buyer about whom there were so many enquiries, we learned to-day that he sailed yesterday in the Boyne, and during his stay here each morning attended the wool market.

News was received to-day of the capsizing of two lighters in the Riachuelo, one of Casares, and the other of Tornquist, both with imports.

The Montevidean telegram gave—

Sta. Catalina, Ymenez.

700 pipes tallow; Guaviyu, 20.

Two cargoes of wool at reserved price, 40½ on board.

Cargo Pernambuco sugar, 17 to 15½.

Porvenir, 61 cash; 60 end of month.

Fortuna, 15 prem.; home debt, 69 cash; 70 end of month.

Extraordinary do. 67½; Playa shares, 15.

In real estate we have the following sales concluded this day—

Calle Suypacha 77 and 79, house 3 storeys with 60 rooms 16x40 to Messrs Lamas and Co. at reserved price, the place gives 12½ per cent. int.

A small house in Calle Aronales close to Rio Bamba 9½x19, for 50,000 m/c, Mr Lindsay seller.

A Chalet in Belgrano, belonging to Mr. Lamas was sold to-day for 110.000 m/c.

The fifth call on the Platina Brazilero shares was made this day.

It was announced to-day that Dn Saturnino Unzue had resigned his seat as bank director.

In the liquidation room money was offered for the option of receiving 20,000 bonds any day this year at 90 per cent.

One of the most interesting features of the day's news was that the Nat. Government had, on the application of Mr. H.K. Trotman, agent of the Pacific Steam Navigation Co., notified the Board of Emigration that all the expense and maintenance of the 500 immigrant passengers expectected hourly per Nebraska during their term of quarantine would be defayed by the Government. This excellent measure of the Nat. Government merits the very highest approval and shows the good spirit of the Government to protect and aid the emigrant. We must congratulate the Pacific Steam Navigation Co. upon the activity of their agent here, Mr. Trotman, who is indefatigable in his exertions both for the Company and the passengers.

Respecting the Galatea, we hear that the agents here have received a letter from the captain from St. Vincent, in which he says that he leaves for the Plate on the 30th December, and is all right. The Galatea brings a valuable railway telegraph and machine cargo. Amongst her passengers come out eight Scotch girls for Mr. Forbes's Meat Pressure Company.

We learned to-day from a passenger per Cuzco, who saw the Karnak aground, that she is in behind a spit of sand and must be unloaded in her own boats to get off. There is no danger, however, as there is no sea on about there.

The following important wool sales were made by Sr. Larrencchea this day:—

1700 arr. at $110
300 do, 90
650 do, 93
700 do, 88
700 do, 85
800 do, Tapalquen, 84.

There was a great hubbub on 'Change to-day when it was known that the board of the Mortgage Bank had thrown out the Riestra project. The subject gave rise to the most animated discussion; and certainly we must say that, so far as the judgment of the Bolsa goes, it condemns the decision of the board. But all agree that sooner or later the measure will be passed, as the situation of the market demands it. The only thing possible to say in the matter is, that Mr. Riestra is ahead of the board. The measure was not to say thrown out, but postponed indefinitely for future consideration, which amounts to the same. Mr. Riestra then, we believe, with a view to save the measure somewhat, proposed that the bank should continue issuing 8 per cent A along with the now series 6 per cent E, leaving it optional with the mortgagors which to select. This was a capital suggestion, and would have afforded the Board ample means of judging of the efficiency of the original measure, but the Directors in their wisdom rejected even this proposal, and thus the Cedulas stand as they were. It remains but for us in the name of the whole foreign and commercial public to tender to Mr. Riestra full thanks for the trouble he has taken in the matter. It is a mere question of time—sooner or later the Riestra project will pass.

Under this date Mr. William Moll retires from the firm of Sassenberg and Co. Mr. Moll has stepped from the counting house to the bank parlour, being now the popular manager of the new German bank, an institution that is making great headway in this market.

Consignees of goods per Hipparchus are notified that owing to quarantine they have to pay double lighterage.

The Gould telegram about the heat to-day carried so much weight with it that many of our principal brokers stopped out at their quintas to-day: like most prophecies about the weather the day proved quite the contrary to what this much talked of telegram announced. It is right to say that some parties on 'Change to-day insisted that this Gould telegram is apocryphal.

The change in the bonds from 17 to 16 per ounce is the talk of the day. The rumour so current yesterday of this change being carried out this quarter appears to be well founded; the Credit Office it appears wished to wait until Congress meets to mend some provisions, but the President has by decree intimated to the Board that there is no necessity for the delay, that the change may be carried out and the business, as done afterwards, laid before Congress. All the holders of bonds for 600 fuertes and 100 fuertes will be the principal gainers by the change.

The National Government has named Mr. E. Carranza to the board of directors of the Western Railway.

Letters from Cordoba, received to day, state that that city has recently suffered from an inundation the like of which was never before known up there. The torrents came down from the mountains; the streets were covered with water and even the Central Argentine Railway track was in parts covered by the flood. We have heard, however, of no especial damage.

The last news from England respecting Argentine stocks gives the Public Works loan very weak, whilst the Riestra loan looks fast rising to par. Entre Riano bonds are also very high, 99; and Central Argentine 7 per cent bonds are flat enough at 93½. Upon the whole, Argentine stocks stand well on the list at present.

The Provincial Government yesterday published a very important decree on the subject of the Rosario Railway and its branches, which creates some difficulties in the way of Don Mariano, on the ground that the engineers have made the track too far off from the town of the Capilla del Senor, some 10,000 metres. This may necessitate a fresh survey of this portion of the line. Mr. Billinghurst has just deposited 60,000 pats. in the bank, which with the 40,000 pats. previously deposited makes 100,000 pats. pledged for the performance of the contract. All agree that this is too sharp practice on the part of the government, and this deposit clause might well be omitted.

The sale of 80 squares of chacra land in the Lomas de Zamora for $400,000 m/c. is announced; Dr. D'Amico, buyer.

To-day there was a meeting of the board of Directors of the Bolsa, to arrange the report &c. to be read at the general meeting which comes off on 17th inst.

The Mortgage bank board calls upon the holders of amortized bonds, to present same for payment, it appears now, that with the exception of the River Plate Bank and Carabassa's Bank, none have sent in the drawn bonds for payment, but holders must bear in mind that this negligence entails loss, as the bank pays no interest on bonds drawn. We expect to get from the bank the list of numbers drawn for publication, Sr. Medrano has been named by Government to superintend the destruction of the Amortized bonds, but until the holders give them up the bank can do nothing.

The mails per Edinburgh Castle have brought the following—

"Emigration of Dorset Laborers.—On Tuesday about 100 agricultural laborers left Dorchester and Bridport for Liverpool, en route for Brazil. The party, joined by emigrants from other countries, will embark on the 13th inst. The Emperor of Brazil is seeking to establish in his territory the system of British husbandry, and has appointed agents in England, who, on his behalf, offer to pay the passage money of farm laborers desiring to emigrate."

To day we received interesting despatches from the Chuput colony, which, owing to press on our columns, we hold over till to-morrow

It was announced to day that the subscription list to the National Bank is now nearly filled. There has so much appeared in the papers about this new concern that many believed there was a good deal of puffing going on: but it appears that lists from the Provinces are now coming in, and that the stupendous error of keeping the subscription lists open for six months is so palpable that it may possibly necessitate the intervention of Congress to increase the capital to the total amount subscribed. The subscription lists up to the present give—

Buenos Ayres, 10,600,000 pats.
Santa Fe, 150,000
Cordoba, 120,000
Tucuman, 200,000

Possibly the next mail from the interior will bring further subscriptions, which will fill up the total for the Government shares, and the 500,000 shares taken by the founders have to be added to the foregoing.

We have received by the mail neat catalogues from Messrs. Marshall, Sons and Co, of Gainsborough, which can be had at our office.

Another important sale of real estate in Belgrano is announced, but the parties decline to give any particulars until papers signed. It appears that some lands were sold the other day, at a fixed rate, and before the papers were made out the seller resold the same at an improvement of 100,000 m/c, which will give rise to a lawsuit. A fair piece of land at Quilmes offered to Mr. Bate a few weeks ago for 400,000 m/c, for which he refused to give more than 350,000, has been sold for a million. This shows that some people are ignorant of the value of property.

Through the kindness of a leading merchant we are enabled to publish the following details of the present situation of the Belgian "Banque de l'Union" about which so much interest is felt in this market. They are taken from *La Cote Libre*—

"The branch of the Banque l'Union at Antwerp, managed for some time past by a Mr. P, Director of the Central Antwerp Bank, and M J V D K has, unknown to the Directors, entered into colossal speculations in oil and oleaginous fibres. Considerable losses have resulted, which those gentlemen have paid by drafts delivered to the creditors of the Antwerp branch. No trace of such drafts is to be found in the books of said branch, otherwise the Directors might have been put on their guard against placing too much confidence in the honesty of their employees.

"However this may be, those drafts compromised the 'Banque de l'Union,' as they were signed by those holding a power of attorney from the Directors. The amount of the bills is 12,000,000, and the discovery of their existence has brought about the rapid fall of the Banque de l'Union.

"Such are the facts in all their naked truth, and in such circumstances we must neither exaggerate nor deny their gravity. For the present we seek only to re-assure the public as to the consequences of the suspension of payments by the Banque de l'Union. There were two things to be most feared. The first was that all the small shopkespers and traders which mainly compose the 'client ele' of the Bank, would find themselves suddenly deprived of its assistance, thereby causing a terrible crisis.

"The second was the difficulty merchants would experience in drawing the sums to their credit when the writ of reprieve had expired. Those who might have deposited 100 or 200,000 francs to meet their bills, would find it impossible to pay them.

"Such a state of things was alarming, and the Government deemed it its duty to interfere, and as soon as the facts transpired the Minister of Finance called a meeting of the heads of all the financial institutions in Brussells. The discussion was a long one but the necessary measures were finally decided on. A special committee was formed of the National Bank, the Society for encouraging National Industry, the Bank of Belgium, the Belgian Bank of Commerce and Industry, the Bank of Brussels, the Bank of Paris and the Low Countries the Public Works Bank, the "Comptoir d'Escompte de Paris," "L'Union du Credit de Bruxelles," and the firms of I Allara, Brugmann and Sons, Delloye-Tiberghien and Errera-Oppenheim. The above houses are about to form a "Societe de participation," the statutes of which will be drawn up to day at 3 o'clock. "This Committee has been specially instituted to give discount facilities to the customers of the Banque de l'Union and afterwards, on its responsibility, to make advances to the depositors in account current, on security of their lodgments in the Banque de l'Union. The Committee will have at its disposal 5,000,000 of francs. This combination will ward off any crisis to which the suspension might give rise.

"The deficit is 12,000,000 francs, the capital of the Banque l'Union 30,000,000 francs, of which had been paid up on the 31st of December ..... 8,544,500 frs.
Ordinary reserve 572,608
Extraordinary do..... 1,664,915
Contingency Account of 1860 .. 1,000,000
Total 11,782,023 frs.

"On the 31st December there were 2937 shares fully paid up and 27,063 not paid up. A call of 170 frs per share will cover the deficit.

"The list of shareholders of the Banque de l'Union is one of the best in existence, and comprises all the richest landed proprietors and fund holders in Belgium. There can therefore be no doubt as to their paying up.

"Merchants and traders may therefore rest assured that the measures taken will prevent any crisis whatever.

ON 'CHANGE AT MONTEVIDEO.

Tuesday, 14th.

Internal debt.....	69½.
Porvenir shares	55 prem.
Exchange..	61½.

Land-fever has set in so strong that everything else is for the moment forgotten. Is is likely to grow in intensity, as people say to each other "land now is sure to rise, as we see men like "Lezica, Lanus, Fynn and others going in for "this kind of investments." The exact price paid by Fynn and his partners for Villa Colon is not known, but stated at $500,000, which gives the shareholders 300 per cent. for their money. The Marquez quinta which fetched $136,000 is considered well sold; it seems the owner refused 100,000 a week ago. The half of Juan Ramon Gomez's quinta, has been bought by Rodger Best & Co. at something over $70,000, the price being equivalent to either 40 or 45 cents per square vara: the ground is situate beyond Paso Molino, in the valley below Buschenthal's mill which is intersected by the railway. The rise has been so rapid and prodigious that lands at the Cerro bought last year for $100,000 are now valued at 5 times that figure. Even Porvenir shares which sold last week at 20 premium have now gone up to 55 cash and 60 for end of February. Building lots in any part of the suburbs are spoken of as worth so many dollars superficial vara, instead of vara front as formerly. Meantime estancia lands are as flat as possible, no buyers at any price, as people fancy there is no security for life or property outside.

The transactions to-day on the Black-board were—

21 Porvenir, Feb. 28th, 60 prem.
10 do. cash, 55 do.
10 do. do., 55 do.
20 do, Feb. 28th, 60 do.
511,000$ Internal, Jan. 31st, 69
100,000 do do, 69¼
100,000 do do, 69¼
10,000 do do, 69½
10,000 do do, 69⅞
20,000 do, Feb 28, 70
20,000 do, Jan 31, 69½.

Before opening hours the Porvenir shares were in request at 50 premium, but no sellers; the high rate they held through the day was maintained firm at the close. As regards the Internal Debt, the transactions were very large the first being over half a million at enhanced rates over yesterday, and the market was well kept up at a further advance, closing ½ above opening quotations. No other securities were dealt in to day.

The burning of 207 Porvenir shares, by way of amortization, took place yesterday as agreed on. Some of the 12 per cent stocks are so scarce, at par, that investors are unable to obtain any.

Last evening large exchange transactions, up to £20,000, were done on London at 51⅜.

The dividend declared on the Paso Molino tramway is equivalent to 1⅞ per month on the capital.

Mr. Scott, the gas engineer, leaves to morrow per Calderon, Captain Byrne, for Rio Grande, en route for Port Alegre. Mr R Crawford leaves for B Ayres, Mr Zimmermann for Rosario.

The *Money Market Review, Bullionist, Financier* and *Herepath's Railway Journal*, re-produce in full from the STANDARD the account of inaugurating Santa Lucia bridge on the Central Uruguay Railway.

The Nebraska brought to Rio the news of the Galatea having broken down at St. Vincent's.

The Italian corvette Garibaldi arrived at Rio.

The Boyne leaves to-morrow, and takes mails as usual from the Correo for Europe, but not for Brazil.

A rumour was current last night of 80 cases daily of yellow fever at Rio. This is an exaggeration, but it seems by the mortuary lists that 5 or 6 fatal cases are recorded daily.

There is no news yet of the Karnak, which was aground on a sandbank at Punta Arenas, in the Straits.

Photographs of Manton's dock at Colonia are hung up in prominent places, showing the working of it, vessels of 1,000 tons being lifted in 35 minutes.

The Humboldt has brought no news from Europe, but a day later from Brazil: she was at Rio when the Edinburgh Castle left.

The Bordeaux mail steamer of December 20th is looked for to-morrow or after. with one day later from Lisbon.

A young man of good family in Montevideo is under arrest for having murdered on Englishman at Clemente's shop on Wendelstadt's estancia. He says he had no no motive for killing the poor man.

The ventilation of the Bolsa is at last being carried out, after two year's controversy; the round windows hitherto closed are to be replaced by swivel-acting or revolving ones.

Orders have been given to push forward the completion of San Francisco church, all the funds being now in hand.

SAVINGS BANK

BANK MAUA AND C O.

101--Calle Cangallo--103

BUENOS AYRES.

As the immense advantages of Accounts Current is now so generally felt and appreciated in the great emporiums of the River Plate, Montevideo, and Buenos Ayres, that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working classes in that city a safe and profitable depository for their savings.

The sums deposited in that very important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need expenses, or old age, instead of spending them in immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá & Co. of this city, following a noble example of their firm in Montevideo, will offer the same facilities in this city, and has opened a Savings Bank at No. 103 Calle Cangallo from Nine a.m. till Three p.m. every day, for the reception of the savings of the classes already mentioned, Sundays and holidays excepted.

The Bank will deliver to each depositors a pass book, in which will be entered the amount deposited and withdrawn.

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interes will be calculated up to date.

The Bank of Mauá & Co is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare.

The Bank of Mauá & Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighborhood.

Buenos Ayres, 2nd January, 1867.

P. P. MAUA & Co.,

M. A. DE FREITAS AMORIM

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency or one Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p. %) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wish can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.
